PROFESSIONAL SUMMARY

Entry-Level Civil Engineer with experience in site coordination, environmental monitoring, contract administration, maintenance tracking, and quality assurance for infrastructure and public works. Skilled in landfill compliance, construction safety, and sustainable engineering practices. I am proficient in AutoCAD, Primavera P6, Procore, Bluebeam, Revit and Microsoft Office. Passionate about sustainable engineering and environmental protection.

EXPERIENCE

Project Coordinator – KSZ Group Inc., New Hyde Park, NY **Jan 2026 – Present**

- Assist with coordination of facade restoration, roofing remediation, and interior renovation projects across residential and commercial buildings.
- Prepare quantity takeoffs, cost estimates, and bid proposals using Bluebeam, Autodesk Construction Cloud, and Excel-based templates.
- Coordinate with architects, subcontractors, and vendors to track project schedules, procurement activities, and submittal reviews.
- Manage project documentation including RFIs, contracts, change orders, and purchase orders ensuring compliance and organized records.
- Support site logistics planning, safety documentation, and progress tracking while assisting project managers with schedule and cost control.

Instructional Assistant - University of North Texas, Denton, TX **Jan 2025 – May 2025**

- Assisted in delivering lectures related to Occupational Safety & Liability (OSHA regulations) and Construction Methods & Materials, construction safety, and environmental compliance topics providing academic and administrative support to faculty.
- Managed course logistics, lesson plans, and material organization for a class of 70+ students, improving classroom efficiency.
- Evaluated assignments and exams for 30+ students, offering constructive feedback that increased average performance by 10%.
- Conducted weekly office hours, resolving academic queries, clarifying course material, and offering mentorship to students.
- Supported the development of course rubrics, PowerPoint content, and review material that aligned with ABET standards.

Project Engineer - Raghava Constructions India Pvt. Ltd., Hyderabad, India **Sep 2022 – Mar 2023**

- Reviewed and interpreted construction drawings, BOQs, and specifications for estimating and procurement planning.
- Maintained 50+ key documents, like RFIs & contracts, ensuring compliance for road works valued ₹3 Cr (~\$360K USD).
- Oversaw procurement and material delivery for asphalt and concrete, reducing delays by 5% and improving logistics.
- Assisted with roadwork documentation, contributing to project reporting and ensuring adherence to municipal codes.
- Conducted site inspections, monitored works for compliance with municipal codes, environmental regulations & safety.

Intern - Odin School, Hyderabad, India **Jan 2022 – Apr 2022**

- Conducted market research and competitive analysis to identify 25+ high-value prospects, enhancing lead generation pipeline.
- Designed digital marketing assets for web and social media, boosting campaign visibility and engagement by 30%.
- Collaborated with managers to refine pitch strategies and follow-up protocols, contributing to a 15% increase in qualified leads.
- Managed customer feedback data and performed basic CRM operations to track campaign performance and lead conversion.

PROJECTS

Tiny House on Wheels (THOW) – University of North Texas

- Directed the budgeting, scheduling, and risk analysis for a \$165K sustainable mobile home project using earned value management (EVM) to maintain cost performance within 2% of budget.
- Developed and managed schedules and coordination using Primavera P6 and Procore.
- Delivered stakeholder dashboards and reporting summaries, improving transparency and client communication by 30%.
- Ensured compliance with green building codes and enhanced team collaboration through weekly design reviews.

G+3 Villa Design – GNIT, Hyderabad

- Created architectural and structural blueprints for a multi-story residence.
- Utilized AutoCAD and Revit to generate 3D models and ensure design accuracy per regional codes.
- Conducted load calculations and selected structural members in alignment with IS codes for reinforced concrete design.

EDUCATION

MS Engineering (Construction) Management - University of North Texas, Denton, Tx

(CGPA- 3.64) Aug 2023 – May 2025

BE Civil Engineering- Guru Nanak Institute of Technology, Hyderabad, India

(CGPA- 6.94) Jun 2018 – Aug 2022

SKILLS

Construction Management: Site supervision, budgeting, material management, project tracking, submittals, RFIs

Software Proficiency: AutoCAD, Revit, Primavera P6, Bluebeam, Solidworks, Sketch Up, Procore, Microsoft Office Suite

Project Planning & Coordination: Design implementation, cost estimation, subcontractor coordination

Documentation & Reporting: Project documentation, budgeting, reporting, OSHA knowledge, site inspections, QA/QC documentation

CERTIFICATIONS

- **OSHA 30-Hour Outreach Training Program – Construction** **November 2025**
- **Procore Certified:** [Project Manager](#) | [Estimator](#) | [Engineer](#)
- **LinkedIn:** [Occupational Safety and Health: Hazard Communication](#) | [Advanced Primavera P6](#)

ACHIEVEMENTS

- Served as President (2020–21) and Coordinator (2019–20) for Street Cause GNI, a student-run NGO in India, leading initiatives focused on community development and social welfare.
